SUMMARY

A Computer Engineering student with a real passion for designing, coding, creating projects, mobile apps and web development. I embarked on a journey to follow my passion for programming. After enrolling in the coding world, I immersed myself in the intricacies of full-stack web development. The allure of programming lies in the thrill of problem-solving—I find immense satisfaction in unraveling complexities and crafting elegant solutions. Proficient in a robust tech stack encompassing React, Next.js, Node.js, and MongoDB, I have honed my skills in building dynamic and scalable applications. My toolkit extends to TypeScript and Prisma, adding a layer of precision to my development process. I am always eager to embrace emerging technologies and expand my knowledge base. As a tenacious learner, I thrive on challenges and stay abreast of industry trends to ensure my skills remain cutting-edge. Currently seeking a full-time position as a software developer, I am poised to contribute my expertise to innovative projects. I am excited about the prospect of collaborating with like-minded professionals and continuing my growth in the dynamic field of software development.
